

Statement of conflict minerals for purchased parts of the YASKAWA

The United Nations Group of Experts on the Democratic Republic of the Congo (DRC) found that the trade of certain minerals, Columbite-Tantalite (Coltan/Tantalum), Cassiterite (Tin), Wolframite (Tungsten) and Gold, called Conflict Minerals (3TG), is helping to finance the civil conflict in the DRC characterized by extreme levels of violence, particularly sexual-and gender-based violence.

YASKAWA is a global company and, as part of the "supply chain", is committed to complying with certain laws and regulations. From our suppliers, we need information about conflict minerals for the products we supply.

YASKAWA Suppliers must exercise due diligence to ensure that the minerals such as tantalum, tin, tungsten, and gold contained in its products manufactured do not cause or contribute to serious human rights abuses, environmental destruction, corruption, or disputes in Conflict-Affected and High-Risk Area

The inquiry refers to all products or product groups related to your company:

1. Company Information			
Company Name:		Company Name:	
Address 1:		Address 2:
