

YasXIO

With Yaskawa's YasXIO system 16 I/O from the robot controller can be routed directly to the robot arm through the media connection in the manipulator.

KEY BENEFITS

- Direct transfer of 16 I/O to the manipulator
- Exchange against existing XIO02B
- Compact and stable construction
- Easy wiring
- Total current 4A, maximum current internally limited
- Short circuit protection
- LED for the display of the existing master/slave communication
- LED for displaying fault conditions
- Installation on DIN rail
- 2 slaves per master possible
- 16 inputs/outputs can be connected to slave terminal block

Compatibility with controller generation:

Scope of delivery	A-No.
YasXIO Master	175634
YasXIO Slave	175637
YasXIO Set 16 I/O: 1 YasXIO Master (in controller) 1 YasXIO Slave (on manipulator) 1 main cable 1 bus cable	175654
Accessories: Connecting cable manipulator/master Connecting cable slave/manipulator (always media plugs are necessary)	5,0 m 180284 0,5 m 180286
